Mission, Vision, Scope

Mission

The identification of standards and promising practices related to states' local EMS agency licensure, and the development of models for states' use in their regulatory practices related to local EMS agency licensure.

Vision

An EMS system in every state where EMS personnel, their patients, and those in the vicinity of EMS vehicles are safe and the public is protected through effective regulation by the states.

Scope

Provide a forum for communication, interaction and networking between peers. This forum will allow for the sharing of best practices; the joint resolution of obstacles and challenges; the development of model regulatory tools, and the nationwide promotion of evidence-based decision making for EMS system development.
