 - Simpler we make it – the better it is for the states. Include instructional guidelines for states. If we make it too detailed, it won't fit all state needs and allow them the ability to make it their own.
 - Want to keep into consideration that we don't want to drive up the cost.
 - Each state would add in their respective motor vehicle rules and regulations for compliance with state of origin rules
 - Added:
 - Safety Restraint System (Safety Equipment)
 - Discussed not include pediatric so it is not limiting – want to encompass small adults as well
 - Testing
