The mission of the **Joint National Emergency Medical Services Leadership Forum** (JNEMSLF) is to facilitate a shared vision, collaboration, and unity in purpose to improve emergency medical services and conditions that affect emergency medical services throughout the country.

It is the vision of the **JNEMSLF** that timely, stable and accountable local and regional emergency medical services systems with the capacity and performance to ensure optimal patient outcomes must be available throughout the United States. The **JNEMSLF** will achieve this vision through:

- Maintaining contemporary and mutual awareness of the priorities, challenges, and accomplishments of national associations with a leadership role in emergency medical services systems in the United States
- Fostering an environment of trust and information exchange among and between national EMS associations and partners in the executive branch of the federal government
- Identifying matters of mutual importance and developing consensus-based positions for emergency medical services stakeholders and partners at the all levels – local through federal
- Serving as a collective voice for interactions with federal and national organizations when a multi-association, multidisciplinary educational approach is of benefit to all stakeholders

- Health IT in HHS/ASPR portfolio, excited about transitioning EMS data to the Health Information Exchange

NEMESIS: National Association Volunteers

- Associations present committed to query within respective associations for the “right person”

- Primary in person meetings at EMS Today (spring) and EMS World (fall)
- Teleconferences for workgroups on the two selected priority areas should be conducted soon and as needed

JNEMSLF 2012 Meeting Schedule
