

## Help Present EMS on CAPITOL HILL

### Support EMS On The Hill Day March 26, 2014 (briefing March 25) in Washington, DC

EMS On The Hill Day is an all-inclusive national event held annually to educate Congress about the needs and challenges facing EMS. This event brings together our nation's entire EMS community, from agencies and practitioners representing all delivery models to the leaders of national EMS organizations.

Educating congressional leaders empowers EMS and your organization. Engaging Congress not only benefits those practicing in the field but all industries that develop products, programs and services that support the delivery of quality patient care.

Learn more about the opportunities available to support EMS On The Hill Day 2014 on the reverse side.

**Do not delay, support EMS On The Hill Day 2014 TODAY!**
