

Resolution 2023-01

Embracing The National EMS Museum

Whereas, emergency medical services (EMS) and the emergent out-of-hospital care for the sick and injured has continued to evolve since antiquity; and

Whereas, it is appropriate to immortalize and honor the history, present, and future of the EMS system; and

Whereas, the industry recognizes the importance of having a keeper, storyteller, and beacon of inspiration and innovation for our rapidly changing EMS systems; and

Whereas, National Association of State EMS Officials (NASEMSO) members declare that The National EMS Museum is the national museum for EMS;

Now, therefore be it resolved that NASEMSO challenges the EMS community as a whole to join us in supporting The National EMS Museum in helping to convey the story of the EMS system, educate community members, and inspire people to participate in the system to their fullest extent.

Submitted by Justin Romanello, Bureau Chief
NH DOS, Division of Fire Standards and Training & EMS

Signed this 15 day of June, 2023.
