## Mission, Vision, Scope

### Mission

Lead the industry through development and promotion of policies, research, and collaborations to improve the emergency medical care for children.

### Vision

Improve the care of children by utilizing outcome-based data, pediatric focused education, supporting innovative programs, as well as encourage EMS system analysis to ensure quality emergency care.

### Scope

The Pediatric Emergency Care Council will provide a forum for communication, interaction, and networking between peers. This forum will allow for the sharing of best practices; developing and encouraging mentoring programs; the joint resolution of obstacles and challenges; and the nationwide promotion of evidence-based decision making for EMS system development.
