A seamless nationwide network of coordinated and accountable state, regional and local EMS and emergency care systems. The systems use public health principles, data and evidence as a basis for safe and effective care in day-to-day operations as well as during catastrophic events.

A SURVEY OF MEMBER STATES

Emergency Medical Services Personnel as Vaccinators

Status by State

February 8, 2021
Paramedics

Survey Question:
Please select the response that matches the current regulatory conditions related to administration of vaccinations via the intramuscular route in your state (for Paramedics).

- May always perform under the current state scope of practice or local medical director discretion
- May currently/temporarily perform under an emergency/ executive order or other administrative action
- May not perform
- Do not license/certify at this level
