I did speak to Natalie. They are looking to put our name on their web site as supporting their efforts and supporting their goals. There is no cost to NASEMSO for this. I think this is a good idea as it would be beneficial if the DEA and others were able to track where drugs were coming in esp given the Heroin/fentanyl crisis

Hi there-

So good to speak!

As promised, the members of Americans for Securing All Packages (ASAP) can [be found here](#): Allergan, Alliance for Safe Online Pharmacies, AmerisourceBergen, The Center for Safe Internet Pharmacies (CSIP), Coalition of Services Industries, International Game Technology, International Warehousing and Logistics Association, Johnson and Johnson, LegitScript, Lexington Institute, Shatterproof, Small Business & Entrepreneurship Council and SurfWatch Labs.

In a recent [Fast Company](#) article, Drug Enforcement Administration spokesman Russ Baer states "Both drugs [fentanyl and carfentanyl], along with a growing cornucopia of illicit synthetics, are largely being [manufactured in China](#), and smuggled into the United States both over land and through the U.S. Postal Service."

You can also read more about the work of our coalition in publications such as [U.S. News and World Report](#), [VICE](#) and [CNN](#), and more on the postal loophole itself in [Rolling Stone](#), [The Washington Times](#), the [Wall Street Journal](#) and [Fast Company](#).

Please let me know if you need anything else as your board considers joining ASAP!
