Dear Colleagues:

Happy Friday. At the urging of some of our partners in the transportation community, APHA and TFAH are circulating the attached sign-on letter to US DOT in support of a safety goals and performance measure for bicyclists and pedestrian (non-motorized) users.

**Please let Rachel Feldman ([rfeldman@tfah.org](mailto:rfeldman@tfah.org)) know by COB Wednesday, August 17<sup>th</sup> if your organization is able to sign.** Happy to answer any questions you may have. Feel free to circulate this opportunity to other public health partners you think may be interested in transportation safety and injury prevention issues.

Hope you have a great weekend.

Cheers,  
Jack
