Dr. Jon Krohmer
Director, Office of EMS at USDOT NHTSA
FICEMS
1200 New Jersey Avenue, SE, West Building
Washington, DC 20590

Dear Dr. Krohmer:

On September 27, 2012 the National Association of Emergency Medical Services Officials (NASEMSO) passed Resolution 2012-01 (attached) in support of Model Uniform Core Criteria (MUCC) implementation plan being developed by Federal Interagency Committee on Emergency Medical Services (FICEMS).

While the NASEMSO still supports the MUCC implementation plan, we would like to ask that FICEMS provide NASEMSO an update to the following questions that were stated in the resolution:

1. Information on grant opportunities to support states and local jurisdictions in implementation of MUCC.
2. Briefing on the implementation plan by Department of Homeland Security to gain support by the Emergency Management community.
3. Any current scientific evidence regarding the need to move the national emergency services system toward MUCC.
4. Best practices on the implementation of MUCC in areas where the system has been piloted.

By providing this requested information, this will assist states in their development of a state implementation plan. NASEMSO stands with FICEMS as a partner as we move MUCC forward to the benefit of the patients we treat daily.

Thank you for considering this request and please do not hesitate to contact me if you have any questions concerning this request.

Sincerely yours,

Keith Wages
NASEMSO President Elect
