**Responses to NASEMSO Survey on ACEP Minimum Equipment List**

Count of Responses: 12

June 2018

**Do you feel NASEMSO should partner with other associations to maintain a minimum equipment list for ambulances?**

<b>Response</b>	<b>Count</b>
Yes	6
No	6
<b>Grand Total</b>	<b>12</b>

**If yes, do you have suggestions for potential partnering associations or organizations?**

<b>Response</b>	<b>Count</b>
I answered yes to partnering with other organizations and associations because I think NASEMSO should be the lead voice for EMS in the country. If a minimum ambulance equipment list is going to be developed by any group, NASEMSO must be at the table. I am not sure how beneficial the list would assist my state in rule making because we pretty much exceed any minimums that have been developed in the past. But NASEMSO needs to lead if this effort is undertaken.	1

Prefer that ACEP be asked to continue rather than NASEMSO	1
Suggest standardized MCI bags on all ambulances	1
We are in the process of excorporating as much as possible from our regulations, so need an external body to maintain a list. If you don't, I was planning on forming a nonprofit for this express purpose.	1
We use the ACEP as a foundation but add to it.	1
Will have to research who is best	1
