

NAEMSO Council and Committee Reports

NAEMSO Board of Directors Meeting

Thursday, February 9, 2017

Medical Directors Council

The Model EMS Guidelines Project team met for 2 days just prior to the NAEMSP meeting in New Orleans. 22 team members worked on developing new guidelines to be added and revisions to the existing document. The team continues meeting monthly by conference call.

The Medical Directors Council also met for a half day with 23 members in attendance. Many states are facing similar issues with the opioid epidemic continuing to be a major issue.

Trauma Managers Council

The Trauma Manager Council (TMC) has been working on several things:

1. The TMC was asked by Dia to query members for ad hoc group (the TMC Policy Subcommittee) to review the National Academies of Sciences, Engineering, and Medicine (NASEM) report and recommendations. The group identified areas of concern as well as areas of encouragement. The attached is that document.
2. Following the completion of the 2015 Trauma Monograph, the “Continued Support for State Trauma Programs” (see attached) resolution was drafted that identified areas for continued effort. With Kathy Robinson’s assistance, the resolution was prepared for presentation to the NAEMSO Board.
