NASEMSO Board of Directors Meeting

Thursday, June 8, 2017

Data Managers Council

NEMSIS Version 3.5 Revision: NHTSA has begun the process to revise the current NEMSIS data standard with this new version being Number 3.5. This revision will resolve issues related to several areas of the current Version 3.4 standard is the demographic and EMS data areas. NEMSIS is establishing 5 working groups to assist with the revision process with each group focusing on a specific area of the revision. The DMC will be engaging these working groups to ensure the needs of the membership related to the NEMSIS data standard are considered long term. The revision process will go through March 2018 and the new standard will take effect in January 20-19.
