

NASEMSO Council and Committee Reports

NASEMSO Board of Directors Meeting

Thursday, May 11, 2017

Medical Directors Council

The MDC held its bi-monthly meeting on May 1 with 23 in attendance.

A special presentation was provided by CapView Strategies on their Large Vessel Occlusion (LVO) Stroke Initiative. They intend to submit the proposal to the Center for Medicare and Medicaid Innovation (CMMI) as a pilot project. They have asked to further consult with the NASEMSO Medical Directors Council on refining their proposal as it relates to EMS.

The Model EMS Clinical Guidelines Project (Version 2.0) is making excellent progress. The draft will be released for public comment this week, allowing 7 weeks for respondents to submit comments. Version 2.0 includes an additional 15 guidelines that have been added to the existing 56 guidelines, which have all been reviewed and updated.
