CAPITOL PROMENADE
Registration
When Sudden Cardiac Arrest (SCA) hits, action is critical. The Medtronic Foundation has launched the HeartRescue Project, an unprecedented collaborative effort to reduce SCA deaths in the United States. From general public to EMS to hospital staff, we’re supporting programs that ensure victims receive lifesaving, state-of-the-art care. Together, we can save more lives.

Learn more at HeartRescueProject.com

Every second counts. Every action matters.

Innovating for life.
Federal Updates (CONTINUED)

Dr. Elizabeth Edgerton, HRSA, EMS-C (invited)

Heart Rescue Project: An Opportunity for State Partnerships

Joan Mellor, Program Manager – HeartRescue Medtronic Foundation

Value and Limitations of Probabilistic Linkages of Statewide Data Sets

Dr. Clay Mann, Facilitator
Dr. Greg Mears, University of North Carolina-Chapel Hill
Dr. Larry Cook, University of Utah
Joshua Legler, Utah Department of Health

EMS Snapshot

Dr. Greg Mears
Associate Professor and Medical Director
The EMS Performance Improvement Center, Department of Emergency Medicine, University of North Carolina-Chapel Hill

This session will provide up-to-date information on the status of EMS in the Nation based on data and input provided by NASEMSO members.

Council Reports and Discussion of Priority Issues, PART I

DOMESTIC PREPAREDNESS—Joe Schmider (PA)
RURAL EMS—Jim DeTienne (MT)
COMMUNICATIONS—Paul Patrick (UT)
AIR MEDICAL—Dr. Robert Bass (MD)
HITS—Dennis Blair (AL)

Council Reports and Discussion of Priority Issues, PART II

EDUCATION & PROFESSIONAL STANDARDS—Marilyn Bourn (CO)
TRAUMA—Tim Held (MN)
DATA—Stephanie Daugherty (FL)
MEDICAL DIRECTORS—Carol Cunningham, MD (OH)
PEDIATRIC EMERGENCY CARE—Katrina Altenhofen (IA)

Panel Discussion: Domestic Preparedness Lessons Learned from Israel

Leslee Stein-Spencer, NASEMSO Program Advisor
Jim DeTienne (MT), State EMS Director
Joe Schmider (PA), State EMS Director
Kathy Robinson, NASEMSO Program Manager

Earlier this year, a national EMS delegation including several NASEMSO representatives visited Israel to identify EMS and health strategies that could be utilized to improve domestic preparedness responses in the U.S. The group will provide an overview of the Israeli EMS system including combat training, the world’s largest underground hospital and trauma center under construction, and lessons learned from several mass casualty incidents involving explosives.
BREAKOUT SESSIONS

11:15 AM TO NOON

Track 1

MEETING ROOMS L-M-N
EMS Education Agenda: Implementation Update
Dan Manz, Chairman
NASEMSO Implementation Team
Project update and results of 2011 survey of states will be announced.

Track 2

MEETING ROOMS P-Q-R
EMS Information Communications Technology: the Exciting and the Frightening
Kevin McGinnis, NASEMSO Program Advisor
Paul Patrick, (UT) State EMS Director

NOON TO 1:30 PM
BALLROOM A

**SPECIAL LUNCHEON SESSION**

Preventing Fraud and Abuse in EMS Certification and Licensure
Sue Prentiss, EMS Coordinator, Concord Hospital, Concord, New Hampshire
Dan Manz, Operations and Logistics Administrator, OPHP and EMS, Vermont Department of Health
This session will highlight measures that states can take to detect irregularities in certification and testing procedures used by practitioners to obtain fraudulent credentials, including EMS licenses.
1:30 PM TO 2:30 PM

Track 1
MEETING ROOMS L-M-N
Fit Responders
  Bryan Fass
The session will explain how to justify, fund and run an EMS injury prevention and wellness program and to show states how easy it is to set up a program and reap the benefits in reduced injury rates and lower insurance costs.

Website: www.boundtree.com

Bound Tree Medical specializes in emergency medical equipment, supplies and product expertise for fire departments, military, government institutions and other EMS providers. We support our customers with our team of EMS-experienced product specialists, customer service representatives and local account managers, backed by strong vendors and a national distribution network. From everyday disposable items to extensive capital equipment, we offer thousands of quality products from leading manufacturers to help our customers save lives.
As pioneers in online education, we’ve changed the way people learn over the Internet and maintain their professional training and certification. Our team of in-house instructional designers, educators and technical experts has partnered with EMS, fire service and public health organizations and more to make online education easier than ever.

Revolutionize the way you collect and manage critical EMS Data.

RescueNet from ZOLL – a suite of NEMSIS-based software tools that work together to improve your operational efficiency and patient outcomes.

Immediate access to accurate data is critical to EMS. That is why the RescueNet Suite of software from ZOLL links the entire pre-hospital chain of events and provides a seamless flow of data among applications.

From dispatch through patient care reporting to the billing process, tight integration within the RescueNet applications allows you to move quickly between programs while your data flows seamlessly among applications. With real-time mobile access to your data you can monitor your operations and make smart and informed decisions.

Stop by booth #314 to learn more about RescueNet Solutions for EMS!
Visit www.zolldata.com/rescuenet-EMS or call 1-800-474-4489 to discover how you can maximize your data collection and management process.

Commission on Accreditation of Ambulance Services — CAAS (Tabletop #9)
1926 Waukegan Road, Suite 300
Glenview, IL 60025
On-Site: Sarah McEntee, Executive Director
Phone: 847/657-6828
E-mail: sarahm@tcag.com
Website: www.caas.org

The Commission on Accreditation of Ambulance Services (CAAS) is a not-for-profit independent commission established to encourage and promote quality in the ambulance industry. CAAS accreditation indicates that your ambulance service provider has met the Gold Standard of care essential in the delivery of a modern EMS System. Please visit our exhibit to discuss the value CAAS accreditation will bring to your ambulance providers in the areas of clinical performance, operational readiness and liability/risk management. See how CAAS can help your state EMS agency provide the highest quality ambulance care to your community.
Commission on Accreditation of Medical Transport Systems — CAMTS (Tabletop #5)

PO Box 130
Anderson, SC 29625

On-Site: Eileen Frazer, Executive Director
Phone: 864/287-4177

E-mail: Karen.jacobson@hsc.utah.edu
Website: www.nemsis.org

The National EMS Information System (NEMSIS) defines a process of EMS data collection that can be used to aggregate and store EMS data from every state and territory in the nation. The NEMSIS project was developed to help states and agencies collect EMS data based on the NHTSA/NEMSIS dataset standard.

National Safety Council (Booth #108)
1121 Spring Lake Drive
Itasca, IL 60143

On-Site: Donna Fredenhagen, Product Manager
