

National Association of  
State EMS Officials

# THE NEXT GENERATION OF **AMAZING** NASEMSO PROJECTS

Dia Gainor  
NASEMSO Executive Director

## MILITARY TO CIVILIAN EMS TRANSITION

- “One stop shop” of links to state specific EMS personnel licensure requirements pages
- Assess and document the status of current state legislative or regulatory relief
- Identify functional characteristics and promising practices of EMS educational bridge programs

- Develop a broader strategy/MOU through which state EMS offices could commit to the concept of streamlining and expediting the licensure process for SSMs, veterans and their spouses
- Identify common core elements of state EMS requirements for initial personnel licensure and an environmental scan of other unique state-specific requirements

- Identify standards and promising practices related to states' licensure of EMS personnel, at least at the EMT and paramedic levels
- Draft recommendations (including list of potential or actual resources/toolkit items) that would help the EMS education community assist returning service members in gaining state recognition as an EMS practitioner

- Create and add EMS personnel licensure related definitions to those created in the workforce project related to licensure requirements and capturing licensees' status
- Identify other workforce data collection strategies, to include identification of returning service members, veterans, and civilians actively deployed in Reserve Components.
