

# Outcome of national survey from State EMS Directors

July 1st, 2019

## 30 states and 1 territory replied

### **Questions 1:**

*YES/or NO; our state uses a wrist band to track every patient moved by EMS, if yes do you use the wrist band on a daily or MCI bases?*

26 states reported NO

1 state reported YES

1 state reported Trauma Patient only

1 State reported Trauma and Stroke Patients only

1 State reported for exercises only

1 State reported that they are currently testing for MCIs

### **Question 2:**

*Our state will take disciplinary action against a person certified/licensed if the person test positive for illegal substance in their system yes or no even if the person shows NO sign of being impaired?*

9 States reported YES

9 States reported NO

13 States reported, they could but it would depend on the event (determination is made on a case by case bases)
