 - Further discussion to occur at annual meeting
 - Engage and provide input on EMS agenda 2050 reviews
 - Andy Gienapp will lead discussion at annual meeting, draft of the document available in Basecamp for review.
5. NASEMSO Annual PLC Meeting May 21, 22
Draft agenda is available in basecamp and on website.
6. Hot Issues
Executive Council has requested that PLC review the joint position statement developed by the National EMS Management Association (NEMSMA), regarding the need for future paramedics to hold a degree. This will be an agenda item at the annual meeting.

The Department of Labor recently announced a funding announcement for state occupational licensing review and reform. After reviewing the announcement, the Executive Council decided not to apply for the funding. However, the EC did identify issues that may be related to future priorities set by the council. These issues, along with other licensing initiatives occurring such as Ban the Box, may drive the need for updating the licensing monograph that was completed in 2015. (the Department of labor announcement and the licensing monograph are available on the PLC Basecamp site.)

Dia discussed the need to complete an updated Scope of Practice implementation survey.

Executive Council is seeking feedback of the model legislation of warm hand-offs of overdose patients.

Motion to Adjourn Shreckengaust, second Gully.

Attendees:

Ithan Yanofsky Arizona	Kim Lew California	Geoff Rabinowitz Colorado
Brenda Gully Idaho	Curt Shreckengaust Kansas	Melynda Swindells North Carolina
