

Master (Primary) List of Essential Protocols

Agitated/psych/behavioral with physical/chemical restraints
Air medical transport/utilization - **NHTSA EBG**
Airway management/confirmation/obstruction/failed – adult
Airway management/confirmation/obstruction/failed - pediatric
Allergic reaction/anaphylaxis
Altered mental status
Apparent Life-Threatening Events (ALTE)
Blast/Overpressurization
Bradycardia (adult/pediatric)
Burns
Cardiac Arrest (asystole/PEA/VF/VT) - adult
Cardiac Arrest (asystole/PEA/SIDS/VF/VT) - pediatric
Cardiac chest pain/ACS/STEMI
Care of the suspected spine injury
Childbirth
Determination of death
Diabetic emergencies (adult and pediatric)
Discontinuation of resuscitation
EMS DNR
Environmental
Nausea and vomiting
Neonatal care/resuscitation
OB/GYN emergencies
Oral toxins/overdose/poisoning/medication reactions
Pain management (non-traumatic)
Pain management (traumatic) - **NHTSA EBG**
Post-resuscitation care
Refusal of treatment/transport
Respiratory distress (asthma/COPD/CHF/stridor/foreign body)
Respiratory distress (pediatric specific)
Seizure (adult)
Seizure (pediatric) - **NHTSA EBG**
Shock
Stroke
Syncope
Tachycardia with a pulse (narrow/wide complex) (adult and pediatric)

Secondary List of Potential Protocols for Further Discussion

Abdominal pain
Abuse/neglect/sexual assault
Cardiac arrest - Traumatic
Drowning/near drowning
Fever
Hyperkalemia

Tooth avulsion

Toxic exposures

Trauma (head, multi-system, spine, thorax, extremity, amputation, eye)

Universal/General Care

Possible Protocols to be included

Airway- Sedation-Assisted (Nonparalytic)
Airway-Paralytic (RSI)
Altitude Sickness
Amputation
Back Pain
Bites and Envenomations
Cancellation of Response/ No Patient Found
Carbon Monoxide Poisoning
Cardiac Arrest Triage Scheme
Crime Scene Preservation
Crush Syndrome
Dead on Arrival (DOA)
Dental Problems
Device Malfunction
Diarrhea
Diving Emergencies
Envenomation/Snakebite
Exposure-Airway Irritants
Exposure-Biological/Infectious
Exposure-Blistering Agents
Exposure-Chemicals to Eye
Exposure-Cyanide
Exposure-Inhalation
Exposure-Nerve Agents
Exposure-Radiologic Agents
Exposure-Riot Control Agents
Hypertension
Impaled Object
Implantable Cardioverter Defibrillator (ICD) Malfunction
Individualized Patient Protocol
Indwelling Devices
Influenza-Like Illness/ Upper Respiratory Infection
Insect Envenomation
On-Scene Physician/Intervenor
Seriously Ill Patient
Smoke Inhalation (slated to be included in the Toxins protocol)

Procedures/Operational Issues

Cricothyrotomy
External hemorrhage control
Needle Thoracentesis
Pharyngeal and tracheal suctioning
PPE/bloodborne & airborne pathogens
Vascular access (IV/IO)

Steroid-dependent Patient
Trauma Triage Scheme
Triage to Specialty Facility
