

### Strategic Priority 1 (*Leadership*)

1. The implementation of a mentorship process for newer state trauma system managers and for those who aspire to leadership roles. (SP1)
2. The completion of a comprehensive electronic repository of relevant and easily adaptable resources for use in system development and legislative affairs in all states. (SP2)
3. Engaging membership through Regional Representatives, written communications, teleconferences, and educational webinars. (SP3)
4. Supporting the NASEMSO/ACS Joint Operations Committee; including ongoing advocacy for the development of state trauma system standards and quality metrics. (SP4)

### Strategic Priority 2 (*Systems Development*)

1. The identification of strategies to encourage systems development, data integration, and the interdisciplinary collaboration between trauma and other system disciplines. (SP5)
2. The sharing of best practice to assist states with the continued development of regionalized, accountable, and time tested trauma systems that ensures “the right patient” gets to the “right place” at the “right time”. (SP6)

### Strategic Priority 3 (*Performance Improvement*)

1. Facilitating strategies to support trauma systems benchmarking through the identification of performance indicators and the sharing of best practice. (SP7)
2. The continued collection of relevant trauma data submitted to state trauma registries and the identification of audit filters that are determiners of best practice and optimal patient outcomes. (SP8)

Activity	Lead	Timeline	Status
<b>Activity 1.1</b> - Provide annual summary of actual mentoring activities.	Staff and Steering Committee	Sept 2014	
<b>Activity 1.2</b> - Enhance collaborative relationships between NASEMSO committees and councils and with such organizations as ACS/COT and others.	Seesholtz	Ongoing	
<b>Activity 1.3</b> – Assist in the development of state toolkit resources to support the rollout of ACS “Orange Book”	Held	3 months	
<b>Activity 2.1</b> - Support the development of regionalized systems of care through participation in an as-requested consultation/mentor program and semi-annual webinars (e.g. successful states share experiences and provide guidance to those wishing to implement regionalized systems).	Seesholtz	Ongoing	
<b>Activity 2.2</b> – Provide input to best practices on implementing one or more regionalized systems of care statewide, including STEMI,	Seesholtz	Ongoing	

stroke or other regionalized systems.			
<b>Activity 2.3</b> – Provide input to model documents that will support statewide implementation of a prehospital transport protocol founded upon, and consistent with, the FICEMS HEMS evidence-based guideline development process.	Seesholtz	When available	
<b>Activity 2.4</b> – Provide input to model documents that will support statewide implementation of national recommendations and guidelines related to the use and availability of helicopter emergency medical transport during emergency medical response system planning,	Seesholtz	When available	
<b>Activity 3.1</b> - Produce ancillary documents, such as “best practices” or other tools as needed.	Staff and Steering Committee	Ongoing
